Environmental Sustainability Policy Statement

Brookvex IMS Ltd recognises that its activities have the potential for both positive and negative impacts upon the environment at local, national and global levels. The Company acknowledges its responsibility for environmental protection and aims to contribute to the national commitment to sustainable development, and to the carbon reduction targets identified in the Company's environmental management strategies.

The Company will seek to achieve continual improvement in how it understands and responds to its environmental impacts. An ISO 14001 compliant management system has given further structure to this response.

Brookvex commits to:

- Communicate its environmental policy and strategy to staff, customers and other stakeholders and to raise awareness amongst these groups of their own environmental responsibilities and requirement to commit to environmental improvements;
- Consider environmental factors in respect of the growth and expansion of Brookvex activities, seeking as far as is practical to reduce harmful environmental impacts;
- Comply fully and where possible exceed standards set in relevant UK, EU and international regulatory requirements and agreements;
- Reduce its carbon footprint through prudent use of fossil fuels (through energy conservation, management and efficiency within buildings) and to switch to low-carbon fuel alternatives where possible;
- Manage and reduce water consumption;
- Minimise waste created and where possible to reuse and recycle before responsible disposal of surplus materials; also, to use recycled and recyclable materials wherever possible;
- Protect natural habitats in areas where the Company is carrying out work;
- Integrate principles of environmental sustainability within all Company policies and practices, including to those relating to procurement of goods and services;
- Manage company buildings and land in a manner that avoids negative environmental impacts and enhances the local environment;
- Avoid or limit wherever practical the use of environmentally-damaging substances, materials and processes;
- Ensure that all works at client sites are carried out with due respect to the local environment and in full compliance with the Company's Environmental Management Systems.
- Strive to continually improve the effectiveness of our environmental management system and performance within the Company.

Progress on implementing all areas of this policy and the Environmental Management Systems will be reviewed regularly management system reviews.

Signed

Michael Davidson
CEO
